

K-Love is a vital part of my life. Listening to this radio station has saved me from despair and depression. Our community needs this station on the air. It acts as a guiding light during the troubling times. It ministers to all age groups and I hear it at many local businesses. Please don't allow this message of God to be silenced in our area. God has been forbidden in so many areas of our country and all he wants to do is remind us all how much he loves us. I pray for this station and the members of the FCC who will determine the outcome.
